

## ADVANTAGES OF GOING TO NEW ZEALAND AS AN AJV STUDENT

Important Issue	AJV Advantage	Other Agencies
Course selection	All courses are vetted by a NZ based Licensed Immigration Adviser (LIA) to ensure future employment and PR chances are maximised. We also always have a detailed discussion with you and understand your strengths and future aspirations and arrive at a course choice at the right level that will match this.	Most do not have a LIA on their team. Courses are suggested randomly or to suit their business needs. Unfortunately, many students do not demand for more details and realise they are in the wrong course after they land in NZ. But it is too late by then.
Consultation with LIA before finalising course	Students with specific questions can get an email, phone or video response from our NZ or India based LIA to get reassurance on their course, college, city choice and how it suits their long term goals.	Don't know. Most of them do not have a LIA on their team or anyone based in NZ with actual onshore experience.
Counseling process	Friendly team that counsels you in the comfort of your own home at a time convenient to you and managed by senior managers and our NZ based LIA. We can also connect you to some of our past students who can vouch for our support and services and confirm if your course, college, city choice is correct.	They insist on you going to their office and meeting whichever counselor is available. No guarantee that you will get an experienced counselor or talk to a LIA. And most of the times they are not warm and friendly either.
Admission and visa process	Free of cost done from the comfort of your home using emails and other online technologies. We only charge when there has been a prior visa rejection. We also have an exceptionally strong track record of visa success since each file is quality approved finally by a LIA to ensure it matches the requirements of the Immigration NZ department.	Most of them also do free of cost but some charge enormous amounts for admission and visa process. They also insist on you going to their office and submitting all documents in person wasting your valuable time and effort.

<p>Visas for spouse and/or children if you are married or for parents if they have to visit you</p>	<p>We are owned and operated by a Licensed Immigration Adviser who is licensed by the New Zealand government under the <u>Immigration Advisers Licensing Act 2007</u>. We have two more Licensed Immigration Advisers on the team, one based in India and one in NZ. This means we can process the visas for your family also once your student visa is approved. We offer this service at a discounted fee for our student clients.</p>	<p>This is a critical area since most student agencies do not have a license from the New Zealand government to file any type of visas other than student visas. In most instances they hide this fact and try to file it using your name and will ask you to lie if there is a call from INZ. Recently INZ has been probing about who is filing for family visas and is rejecting applications that have been filed by unlicensed agents. This means your family will be stranded and you will have to travel alone to New Zealand and many years of planning will fail because your agent did not have a license to file for family visas.</p>
<p>Arrival in NZ</p>	<p>We provide comprehensive information for you to find suitable accommodation and travel options as soon as your visa is approved.
